

Therapy Pro's Accelerate

Graduate Program is designed to support your transition from graduate to professional. We know that stepping into the workforce as a new graduate can be daunting, but our wrap around support model and structured 6-month graduate program will accelerate your learning and set you up for success.

The **Accelerate Graduate Program** focuses recent graduates on developing excellent, well-rounded clinical skills, through a mix of self-paced activities, group sessions, guest speakers, masterclasses, supervision with experienced senior therapists, mentoring and buddy opportunities, and professional coaching.

For a career that
makes a difference.

Your Therapy Pro New Graduate Experience

INDUCTION

Welcome! Meet with your new team and learn from people across Therapy Pro. Here you gain the foundations to ensure you feel like you belong and can succeed.

ONBOARDING COACHING PROGRAM

We have a strong commitment to a holistic approach to personal and professional growth. Coaching will help you focus on your areas of development and set you on a personalised course to build your knowledge, skills and behaviours as a therapist.

GRADUATE INTENSIVE

Our Graduate Intensive consists of 12 topics tailored to the needs of new graduate therapists. From understanding the disability experience to working in a commercial environment. Gradually build your self-management and clinical skills from week to week; finishing with a number of real-life case studies with complex presentations.

WORK SHADOWING

Learn from experienced clinicians across all disciplines by observing them in sessions with clients either in face to face or telehealth therapy.

BUILDING CONNECTIONS

The program fosters professional relationships, friendships and networks by building connections with colleagues in the Graduate Program and across the whole Therapy Pro team, providing opportunities for multidisciplinary collaboration and client work and offering training and support to build external relationships with stakeholders in the sector.

CLINICAL SUPERVISION & SUPPORT

As a recent graduate, you receive discipline-specific supervision from an experienced clinician and regular contact with your lead therapist, plus a wide range of therapy-specific colleagues and therapists outside your clinical area as part of a strong multidisciplinary team. There is a layering of support from a wide range of people in Therapy Pro's wrap around support model who become your personal cheer squad!

Why Therapy Pro?

Therapy Pro is a well-established therapy provider delivering services that truly make a difference. Our team of over 100 therapists include occupational therapists, speech pathologists, psychologists, social workers and physiotherapists. We are a mobile therapy provider meeting our clients face-to-face in their homes, schools, parks or workplaces or providing therapy online.

Our culture is built on being exceptional, connected and magnetic. Therapy Pro will support you to thrive and see the impact this positive culture has on the way you deliver high-quality services to clients. We place importance on being authentic, collaborative and making positive connections with people each day. The experience you get will be varied, challenging and incredibly rewarding.

Benefits

- Our wrap around support model ensures you feel on purpose, supported and maintain your health and wellbeing.
- Flexibility to work part-time or full-time and autonomy and trust to schedule your day, your way.
- A range of diversity and variety across a broad client caseload, opportunity to work as part of a multidisciplinary team and options to explore both community and telehealth assessments and intervention.
- Generous annual professional development allowance.
- Lower billable time targets to provide you with the time to learn, grow and foster connections.
- A strong focus on team connection. We provide a dedicated connection budget for team activities as well as access to Connection Hubs for face-to-face activities and meet ups.
